INTRODUCTION

This is the fourth in the National Library of Medicine's series of bibliographies on communicable diseases of world-wide significance; others concern staphylococcal infections, fungus infections, and arthropod-borne encephalitis. The references selected are in English, French, German, Italian, and Spanish; the period covered is 1957 - October 1959. Earlier references are given in some of the articles listed and are so indicated.

The sources searched were: Current List of Medical Literature, Bibliography of Medical Reviews, the card index of the National Library of Medicine, Excerpta Medica, Sections 4, 6, 7, 17, Annual Review of Medicine, Annual Review of Microbiology, Agricultural Index, Bacteriological Reviews, Biological Abstracts, Bulletin of Hygiene, Index Veterinarius, Tropical Diseases Bulletin and the most recent numbers of certain pertinent journals.

INTRODUCTION

le sollte a contribuir a um maior contacto entre os países e a esforçar-se para que
o mundo contemporâneo seja-ho. Deve-se lembrar que o seu objectivo é de natureza
político-económica baseando-se sempre na ideia de que o progresso da
civilização deve ser obtido através da cooperação entre os países. Ele não
tem nenhuma pretensão de ser uma organização militar - Tudo o que se procura é que
os países sejam livres para exercerem a sua soberania e que a sua independência
seja res�nada.

Portugal tem aderido ao Tratado das Nações Unidas em 1945, e desde esse momento
que o seu objectivo principal é de lutar contra a guerra, promovendo a paz entre os
países. A sua participação no Conselho de Segurança das Nações Unidas é de grande
importância para Portugal, que é membro permanente desse conselho. O Conselho
de Segurança das Nações Unidas é composto por 15 membros, sendo Portugal um dos
membros permanentes. O Conselho de Segurança das Nações Unidas é responsável por
a aplicação das decisões da Assembleia Geral das Nações Unidas, que é o órgão
superior da organização.
